Media Release (No 2022)

PICKETING AT ARROWGATE DEPOT

Golden Arrow can confirm that a small number of employees are picketing outside our depot in Montana following a failed attempt at conciliation regarding promotional remuneration structures.

We have noted the press release issued by NUMSA and TOWU and are shocked by claims that all employees will be paid at new rates. The dispute relates only to a new remuneration structure for promotional positions and does not relate to employees in their current positions.

It is the company's position that the remuneration structure of promotional positions falls within management's prerogative subject to the provisions of the bargaining council.

In the interests of all stakeholders we would urge those involved to refrain from making false claims.

A soundbyte is attached for your convenience.
